We are committed in providing a courteous and responsive environment in all business and social aspects with our stakeholders. We approach every situation more individually, understanding the wants of ethical business and social living.

Unlocking a world of meticulous global associations

Quality

We have implemented a quality management system based on our long term experience in piping industry and in line to the standardised procedures and policies of **ISO 9001:2015**.

Our quality system overarches each and every activity in project management, procurement, stocking, execution, supplier & client communication ensuring satisfaction level reflected through our reputation in supplying highest quality of products and services.

We are continuously monitoring the system and adapting to changes whenever required to make the process system more efficient and to ensure our client services and promises are never compromised.

Collective and continuous hard efforts of all departments and our “ONE” approach is the keystone of our efficient quality system

Procurement and Stocking

Complementing & comprehensive range of piping materials sourced from the most reputed and approved global sources ensuring our supply products are adhering to the stringent project specifications. Our regular line of products in supply are frequently evaluated to ensure the range meets the current and dynamic demands of industry.

Covered and open storage facilities within Jebel Ali Free Zone are managed by logistics professionals to highest of the standards ensuring a clean and protective environment.

Our sourcing capacities from 20+ countries and 150+ sources, regular inventories and logistic expertise is of a seamless partnership for ensuring the fastest and straightforward deliveries worldwide.

Product Portfolio

Extensive catalogue of piping products from internationally qualified and reputed manufacturers with exceptional quality in a comprehensive range of sizes and grades

Pipes

- Seamless and Welded
- ½" to 60"

Buttweld Fittings

- Elbows 45D & 90D, Tees, Reducers & Caps
- Seamless and Welded
- ½" to 60"

Forged Fittings

- Weldolet, Sockolet, Thredolet & Nipolet
- CL 3000, 6000 & 9000
- ½" to 8"

Flanges

- Weld Neck, Slip On, Blind, Socket Weld & Threaded
- CL 150 - 2500
- ½" to 60"
- AWWA Series

Valves

- Gate, Globe, Check, Ball & Butterfly
- CL 125 - 2500
- ½" to 80"

Special Fittings

- Gaskets, Nuts & Bolts,
Spectacle blinds, Spade, Spacers, Pipets etc.

Wall Dimensions

- SCH 5S to XXS
- Custom heavier designations

Grades

- Carbon Steel
- Stainless Steel
- Duplex & Super Duplex
- Titanium
- 254SMO
- Nickel Alloys

Standards

- ASTM
- ASME
- API 5L
- DIN
- NACE
- NORSOK

Certification

- EN 10204 3.1
- EN 10204 3.2

Additional Facilities

- Cut sizes
- Machining and End Preparations

Assurance

Professionally complemented and exceptionally valued client services are delivered by our proficient team with high quality products and integrated supply partnerships.

Our customer focused approach and commitments are based on unbiased evaluation of various factors involved in project execution. Our familiarity in planning, analytical problem solving measures and decision making skills are to ensure highest of the satisfaction for stakeholders.

Committed & independent projects team focused on execution is continuously watching over the project processes, risk analyzation, quality checks and communicating regularly to quantify the project advancement with recommendations for possible betterment.

Internal quality checks and material cross verification to documents & inspection reports guaranteeing materials are accompanied with unmatched quality assurance from the global manufacturers.

Projects executed with reliable deliverables, full and complete set of technical documentations, guarantee and warranty terms, spare parts and onsite service availabilities as applicable.

At Ferro FPF assurance is a confidently expressed value of responsibility

National and International Supplies

Committed operations & logistics team with in and out knowledge on the rules and regulations of regional customs, clearance and documentation procedures for moving cargos worldwide. Every project delivery needs an unique approach, hence we tailor the solutions suiting the best desired.

Free zone based warehousing facilities combined with our global delivery model confirms fast and cost efficient logistical solutions tailored to small and large shipments alike.

Our long-term partnerships with the masters of industrial cargo movements are always backed by the support of native offices of the shipping and logistics companies. This ensures a vital advantage for the fastest and economical freight solutions delivered door to door.
